Report on the current condition of the Summit Flats at Keppetipola Mawatha, Colombo 05.

It has been emphasized by the report issued by the Building Research Institute to the Ministry of Public Administration, Home Affairs, Provincial Councils and Local Government on the Summit Flats at Keppetiploa Mawatha, Colombo 05 on 03.09.2023 that following repairs are essential commonly in the said flats..

1. Repairing the stairways of the most of buildings (Constructing new stairways demolishing existing ones)
2. Damages on the walls of pantries
3. Decaying the gutters, roofs and cracks in the walls which bear the beams and damages caused to the concrete roofs

Bathrooms of the most of these housing units should be repaired and walls are damaged due to seeping water from broken water pipes.

4. Doors and windows of the housing units are broken.
5. Iron bars are protruding at some places of the concrete slabs and further they are decaying. Therefore concrete pillars should be repaired.

02. Special attention should be made under such circumstances to carry out above repairs of the summit flats, which have been allocated for the occupation of public officers. According to the report of the Building Research Institute, it is dangerous to occupy such places and it is further observed the lives and the properties may be adversely affected if an unexpected situation occurs.

03. Even though such repairs should be carried out as soon as possible as per the above report, proper repairs could not be made during the past period due to the efforts made within past two decades to demolish this scheme for the construction of new housing scheme.
